

**WARNING: Print on 8.5"x11" paper.**  
 Do Not Scale when printing. Must be printed at 100%.  
 Double/Triple check template scaling prior to use.

### Mounting Template Instructions

1. Place boot on ski, matching boot center mark on boot to center mark on ski.
2. Mark ski at boot toe and boot heel, these marks will line up with the boot toe or boot heel lines on paper template.
3. Cut paper template 'windows'; place windows and lines of template at appropriate boot heel or boot toe lines. Heel piece is mounted relative to boot heel, toe piece is mounted relative to boot toe. Zig-zagged line is to illustrate toe/heel are not related.
4. Tape paper template to ski, centering on ski and lining up with appropriate boot heel or boot toe lines.
5. Double check the template is lined up with boot heel/toe lines and is centered on the ski before drilling/marking binding holes.
6. Drill holes (3.6 x9 mm drill), mount and adjust the binding according to instructions.
7. Repeat on the next ski.
